The summary of re-identifications has been arranged in sequence of PI numbers and reference made to original identification, re-identification, authority, country of origin and the number of the re-identification list or service lot concerned.

The asterisk designates the identification as of record in the New Crops files at Beltsville. A copy of the service lot has been returned to the cooperator who submitted the plant specimens.

Please post these re-identifications in your copy of the printed inventory and your accession files.
